ABOUT US.

The A&L Events team has been part of the entertainment industry since 1962. As a family-run business, our journey began with a simple café, evolving into a cabaret venue, then a nightclub, and later expanding to music festivals. Now, we have combined all our years of experience into event management.

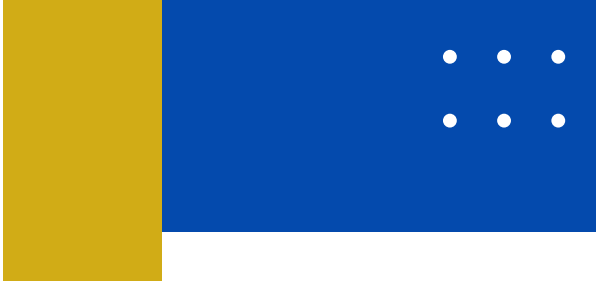

With years of hands-on experience in managing intricate situations and tight deadlines, we ensure that every aspect aligns with the customer's vision. Whether it's power solutions, bar staff, security, refrigeration, marquees, stages, bands, fair grounds or fireworks we understand the many elements required to bring your event to life just as you imagined!

Our only goal is to ensure your event is memorable and operates seamlessly, allowing you to focus on your guests. Whether it's a school fair, a 40th birthday celebration, a wedding, or a festival, we possess the expertise, equipment, and connections necessary to bring your vision to life.
